

Graph to determine cut-off according to Welch's procedure

Arrival rate = 43 requests/second, Smoothing window=25

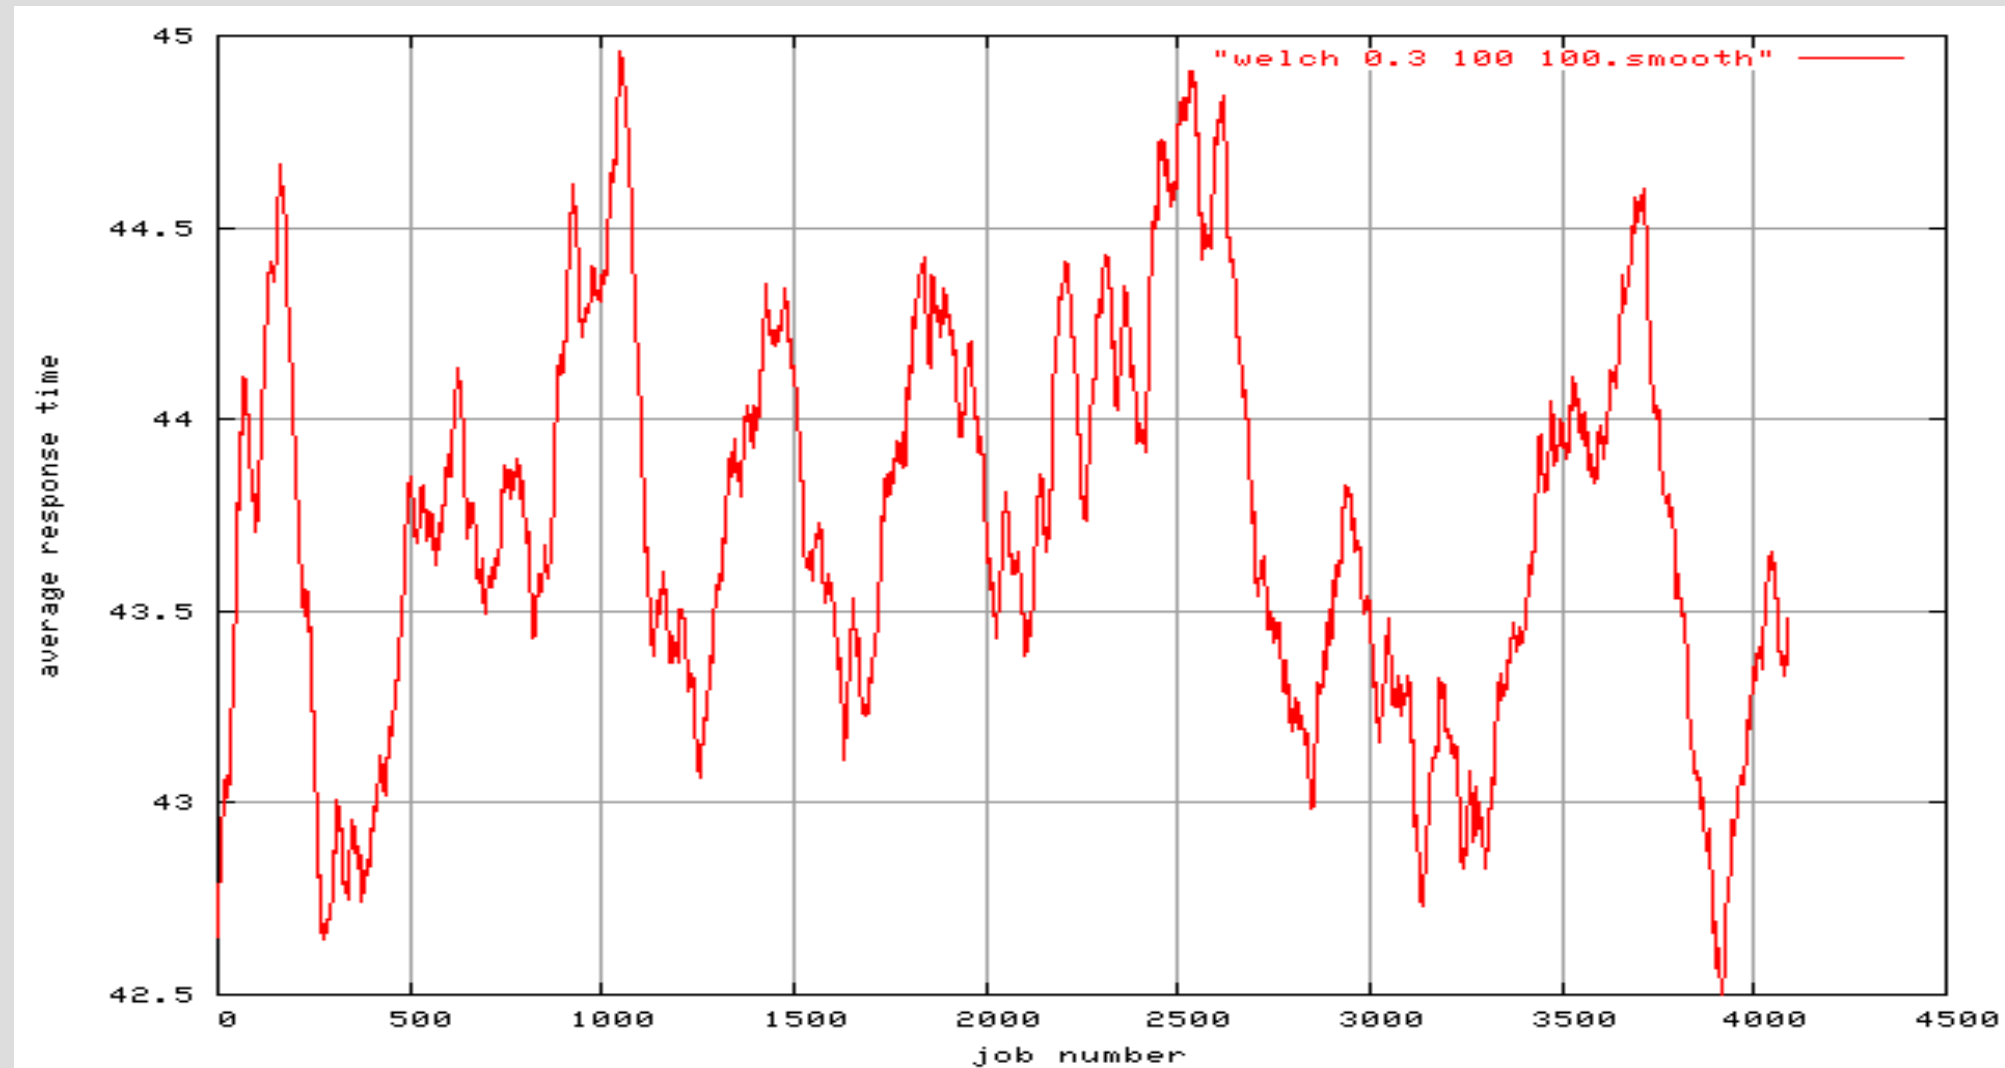

Welch's graphs continued...

Arrival rate = 43 requests/second, Smoothing window = 50

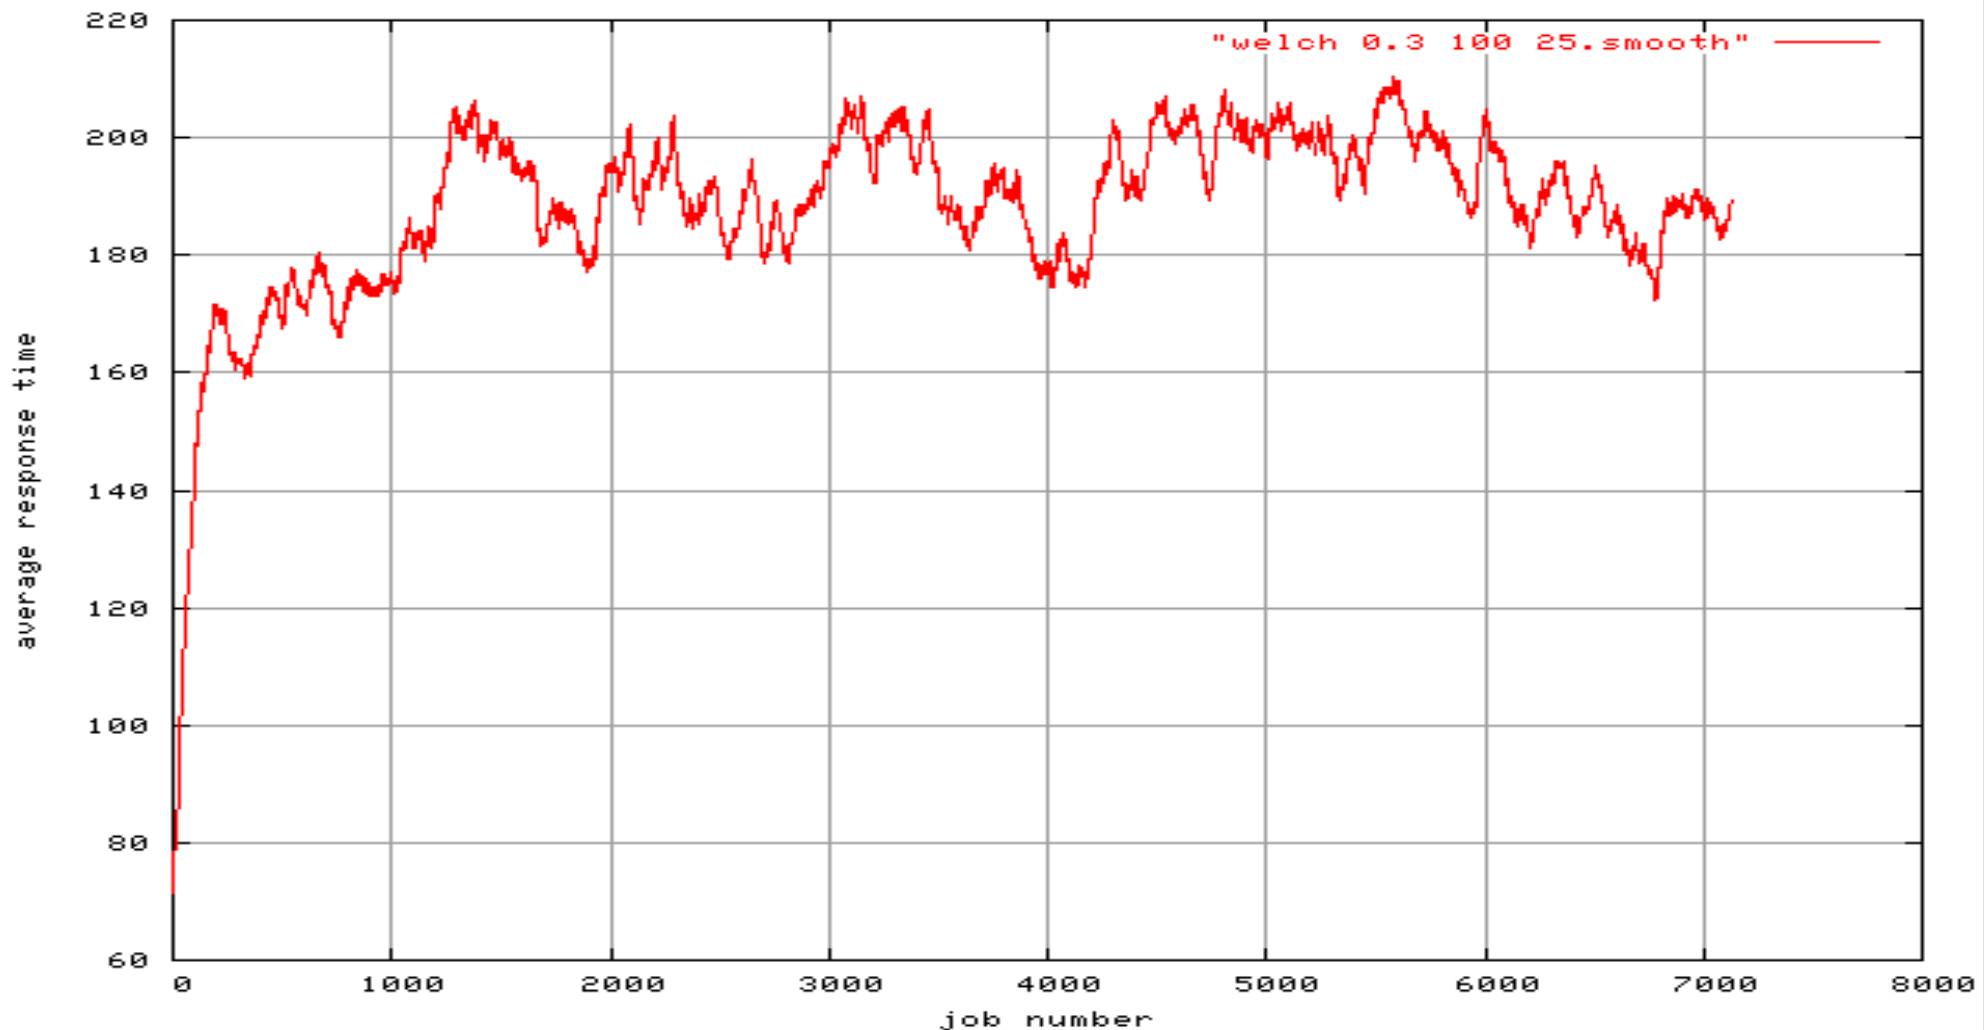

Welch's graphs continued...

Arrival rate = 43 requests/second, Smoothing window = 100

Welch's graphs continued...

Arrival rate=75 requests/second, Runs=100, Smoothing window = 25

Welch's graphs continued...

Arrival rate=75 requests/second, Runs=200, Smoothing window=25
